

SONICLEAR®

Hybrid Courtrooms

Maintain Court Efficiency with Participants in Multiple Locations

- On-Site, Remote and Hybrid Court Sessions**
- Integrate Courtroom and Online Participation**
- Multichannel Video and Audio in Courtroom**
- Digital Video and Audio Recording**
- Support for Digital Reporting and Transcription Hardware, Software, Training and Support**

Keeping Courts Open and Efficient

Courts must continue to in session, even when some participants cannot be in the courtroom. SoniClear provides technology for meeting the challenges of remote participation.

- On-site Courts
- Remote Courts
- Hybrid Courts

Online Video Conferencing

SoniClear can help plan, install and train for holding court using the latest online video conferencing technologies.

Digital Video and Audio Recording

SoniClear provides accurate and reliable recordings of court sessions. Features for digital court reporters includes note taking, readbacks and transcription.

Online Conference Calls

Support traditional on-site courtrooms, remote conference calls or a hybrid mixture of local and online participants.

Video Cameras

Video cameras capture the participants in the courtroom for online conference participants and for digital recording.

Multichannel Microphones

Participants in the courtroom and online can hear each other clearly. Multichannel digital audio recording ensures accurate legal transcripts of the hearings.

Training and Support

Training and installation support for fast deployment of new systems and procedures. Ongoing technical support to maintain efficiency.
