Training for Video Conferencing and Recording

Technology for New Meeting Requirements

Continue holding efficient government meetings, even when some participants cannot attend in person. SonicClear can help you satisfy any mandate on how meetings must be held.

On-Site and Online Meetings

Support traditional meetings, remote conference calls or a mix of local and online participants. Optionally stream meetings live or on-demand.

- On-site Meetings
- Remote Meetings
- Hybrid Meetings

Video Cameras

Video cameras capture the participants in the meeting room for online conference participants and for digital recording.

Meetings using Online Video Conferencing

SonicClear can help you plan, install and train for holding government meetings using the latest online video conferencing technologies.

Microphones

Advanced microphones ensure participants online and in the meeting room can hear each other clearly.

Digital Video and Audio Recording

SonicClear software creates accurate and reliable recordings of meetings for archiving, transcription and review.

Archive and Share Recordings

Share recordings online or using a network folder. The SonicClear Cloud service is available for automatic transcription of meetings.
