**Microsoft Surface Pro tablet computer**  
**Court Recorder 9 software preconfigured**  
**Microphones and USB audio mixer**  
**Directly replace handheld recorders**  
**Hardware encryption for confidentiality**  
**Transcribe from tablet or from any computer**

### A Complete Digital Recording System

Tablet Recorder 9 captures clear, digital audio and video, while being simple to operate. Ideal for professional digital reporting in depositions, courts, and administrative hearings.

### Custom Microphone Kit

The Tablet Recorder 9 system is designed to handle any legal proceeding. The microphone kit included with the system is customized using various microphones and multichannel mixer options to ensure reliable recording and accurate transcription.

### Ready To Use

No special setup is required. Tablet Recorder 9 has Court Recorder 9 software pre-installed, and is ready to use straight out of the box. Turn on the computer, plug in the microphones, and start recording.

### Court Recorder 9 Software

- Courts
- Depositions
- Administrative Hearings
- Digital Reporting
- Verbatim Reporting

### Microphone Options

Typical kit configurations include compact 2 mic and 4 mic systems, or 8 -12 channels for larger rooms.

### Video Recording Option

The Video Recording Kit captures digital video that synchronizes with the audio. Kit options include a choice of video camera or encoder.

### Training and Support

Training and installation support included. Annual Software Support covers ongoing technical support and software updates.
